Happy February! We have had another fantastic week at Genesee STEM Academy. The sensational second grade students are engaging in in-depth learning of the Engineering Design Process. These scholars were asked to create a Valentine's Day box that included three simple machines. Their projects were phenomenal. We invite you to visit the 2nd grade classroom webpage to see the results of their hard work.

It is time to shine! Grades 5-10 started to take the winter NWEA MAP test this week. Many students are hitting their goal. Several students exceeded their goal. Congratulations to all of the scholars that are doing their absolute best! Testing will continue through March 20, 2019. Let's show the world that we are the top STEM school in Michigan!

Due to inclement weather, we are rescheduling our Black History program to Thursday, February 28, 2019. We are looking forward to showcasing our understanding of the many fascinating things that we learned during Black History Month.

Report cards were sent home this week. Please review this document in order to ensure that your child is learning the academic and behavior concepts for their grade level. Feel free to schedule a meeting with your child's teacher to discuss their progress.

It is now time to reserve your child's seat for next school year. Please complete and return the lilac colored re-enrollment application by Friday, February 28. Open enrollment will begin Friday, March 1 and open seats will be filled by new students.

Important Dates

February 12 - March 20 NWEA MAP testing

February 18 - President's Day/No School

February 28 - Black History Program

Now thru February 28 - Re-enrollment forms turned in

March 1 thru March 29 - Open enrollment (new students) begins

Have a wonderful weekend.

Sincerely,

Kimberly Coulter
GSTEMA Principal

Genesee STEM Academy Mission

The mission of Genesee STEM Academy is to provide a safe, nurturing environment for students to develop a passion for lifelong learning, a strong academic foundation, and exposure to the key fields of science and technology, engineering, and math.
